

# HENSOLDT SKS 20-21 CALIBER BAR

## Universal Muzzle Boresight Devices

The higher the hit probability of a weapon, the greater its combat value. Battlefield supremacy, increased survivability and less ammo usage are among the easily achievable advantages of a well-adjusted weapon system. The risks of collateral damage and friendly fire are comparably minimized as is the risk of counter-fire caused by missing the target with the shot - and missing the target is no option.

The Universal Muzzle Boresight Devices from Hensoldt Optronics provide the cost effective means to adjust aiming sights of almost all guns in today's service. Being compatible from 5.56 to 155mm caliber it is usable from factory to crew-level for long and short range alignment. The Universal Muzzle Boresight Devices ensure highest precision, where it is needed - on target.

# HENSOLDT SKS 20-21 CALIBER BAR

Mechanical Data		Features and Benefits
Length	431 mm	<ul style="list-style-type: none"><li>• Highest weapon precision</li><li>• Rugged design</li><li>• Almost no lifecycle costs</li><li>• Easy handling</li></ul>
Stop plate	48 mm	
Weight	0,8 kg	
Protective sleeve	n/a	
System Performance		
Tolerance	19,85 - 20,30 mm	
Accuracy (max. deviation relative to gun barrels axis)*	< 0,2 mil	
Max. length flash hider / muzzle brake	193 mm	
General Data		
Environmental test (in extracts)	MIL-STD 810 G	
Compatible Weapon Systems		
Rheinmetall MK20 RH 202, Oerlikon KA, Hispano-Suiza 804		
Ordering Numbers		
Drawing No.	80-009-02-0139821	
NATO Stock No.	n/a	
Accessories		
Standard and customized container solutions available on request
